

To the FCC:

Here is it would seem a perfect example of why the FCC should not let corporations buy up too much media under one ownership.

What Sinclair has scheduled to do in canceling their regular programs and instead showing a film apparently slanted against one candidate is an outrage in this supposed Democratic society.

Letting them get away with this is a true trampelling of citizens rights to equal and fair access to the airwaves. It is frightening!

I beg you to stop this plan and call it what it is - free advertising for the Bush Campaign to the detriment of the Kerry campaign.
